Faculty of Accounting and Administration,
National Autonomous University of Mexico

Overview of Special Edition

Currently, international businesses face great challenges derived from the negative externalities that have occurred derived from past and present actions, which have modified and impacted the environment in which all human activities are carried out, so it is essential to analyze and recognize these situations so that organizations can project themselves over time in order to meet current needs without compromising future ones.

Papers in the following academic disciplines are welcomed:

International Business
Marketing
International law
Administration
Accounting
Finance
International relations
